WETASKIWIN, ALBERTA, THURSDAY JUNE 21, 1928

V. C. French, Publisher

## Chief Kingzett Probably to Represent Wetaskiwin at Convention in Toronto

**Application for Leave of Absence Meets With Favor at Meeting of City Fathers—Weed Inspector May Be Appointed—New Cement Sidewalks for Pearce Street—Many Matters Receive Consideration**

The City Council had a heavy grind of routine business at its session on Tuesday evening. Alderman Howatt being the only absentee.

On motion of Aldermen Gothard and Cook the report of the Finance Committee was adopted recommending the payment of accounts totalling General, \$304.88; Electric, \$660.06; Water, \$152.20; total \$1,117.14.

A grant of \$7 was made to the Bowling Club, to write off an account for electric light service at the bowling greens.

Messrs. Thomas and Dietmann asked for a rebate of \$4 on rent, on account of repairs made to warehouse under rental, but on motion of Aldermen Ingles and Gothard the council decided not to take favorable action, it being held that the arrangement for rental provided for the tenant assuming responsibility with respect to repairs.

The City Solicitor was on motion instructed to take necessary action to collect the sum of \$300 claimed as arrears owing by Mr. Wiltztor for car-rental, tax, rent and utilities, it being maintained that the provisions of the Bulk Sales Act had not been adhered to in the sale of the business and that the buyer is responsible.

L. T. Miquelon made application to purchase from the city the east half of lot 13, block 1, which he formerly owned, but the council decided the offer was too low for consideration.

May Appoint Weed Inspector. L. T. Miquelon and T. R. Jevne made application for appointment as Weed Inspector for Wetaskiwin District, and the Mayor reported another verbal application had been received. Last year the Chief of Police had charge of the work and engaged men to do the cutting. If, however, conflicted with his other duties. The impression prevailed that most satisfactory results would be obtained by the appointment of an inspector who would be directly responsible. On motion of Aldermen Ingles and Gothard the matter was referred to the Public Works department, with power to act.

J. Cairne presented an account for hauling 214 yards of earth from a church excavation. He wanted ten cents per cubic yard for his labor, but the city fathers took the position that they are not in the dirt buying game, and on motion of Aldermen Scott and Cooke the bill was tossed aside.

Mrs. Radomski some time ago bought a couple of lots from the city in Block 75, but has changed her mind and desires to locate where she can take better advantage of public utilities. She wants to trade in on another lot in Block 77. On motion of Aldermen Gothard and Scott the city will undertake to consummate the deal.

Aldermen Scott and Gothard fathered a motion which was adopted, to take out a policy of \$1,000 insurance on the two thousand volumes of books in the public library, with a three-year coverage.

Chief Kingzett, in a communication, informed the council that the Chief Constables' convention would be held in Toronto in August, the benefits from attendance thereto being undisturbed.

## Rev. Dr. McQueen Mingles With Friends of Early Days

Rev. Dr. McQueen of First Presbyterian church, Edmonton, paid a visit to the St. Andrew's congregation, Wetaskiwin, on Sunday last. While the purpose of the Doctor's visit was to officiate at the Sacrament of Baptism, the Minister's little girl being one of the children presented for baptism, nevertheless "the Grand Old Man" of Canadian Presbyterianism, with his usual generosity, took full responsibility for the pulpit work of the day.

"It is forty-one years ago this month since I passed along the trail where this city now stands," said Dr. McQueen in his morning sermon. One could not but feel in some measure the emotion that was his, as he contemplated those years of hardship and blessing. For ourselves we only wish that the Doctor would have dwelt for some time on the experiences of these years. Perhaps it was best for our spiritual edification that the message which followed concerning the search after happiness and rest, should fall upon our ears. It was a fine testimony from one who has been so closely in touch with life and that particularly as it is lived and has been lived

putable, he claimed, and shared equally by the individual and municipality. He desired leave of absence and would attend the convention provided the council would place the sum of seventy dollars at his disposal to assist in expenses involved. The advisability of making the outlay was questioned, but eventually it was decided on motion of Aldermen Ingles and Cooke that if satisfactory arrangements can be made to police the city efficiently during his absence, that the Chief be given leave to his office to the City of the Good with seventy bucks to be plucked from the civic exchequer.

New Concrete Sidewalks. A petition duly signed by the requisite number of taxpayers was presented asking that a concrete sidewalk be laid on Pearce street westward from Dr. McColligan's corner, under provisions of the local improvement act, at an estimated cost of \$1,300, the city to provide the necessary street crossings. On motion of Aldermen Gothard and Scott the matter will be referred to the Utilities Commissioners of the province, and provided that August body is agreeable to the proposed issue of debentures, the hopes of our west-enders will be gratified.

It was incidentally reported that a sidewalk improvements were contemplated on the south side of Pearce street east, one block easterly from Railway street east to be cindered and two blocks further east to be paved. Petitions have not, however, been formally presented.

"It appears that when the city made a seizure some months ago at the de-cessed Walter Cate to secure sufficient wherewithal to liquidate claims for taxes, utilities, etc., against the owner of the east-house, the administration cleaned off the slate and there was an amount of \$28.35 lying idle. Other creditors subsequently appeared on the scene, with the ultimate result that an arrangement was effected and ratified on motion of Aldermen Ingles and Gothard to divide the remaining funds between the National Cash Register Company and other creditors represented by Loggie & Manley.

On motion of Aldermen Gothard and Ingles it was decided to accept overtures made to settle the City vs. Guse et al legal tangle, the city to accept \$150 and pay its own costs, and agreement to be entered into releasing the city from further maintenance obligations.

"What proportion of arrears should we demand from people redeeming property listed for sale tax?" was the question City Clerk Fraser asked. The outcome of discussion was the adoption of a motion by Aldermen Gothard and Scott that taxes must be paid up to within one year, and that if arrears accumulated for a greater spread the caveat would again be brought into play.

Aha, the Plot Thickens. Under whose authority was a cult-vert installed on the road to the golf grounds some two years ago? On motion of Aldermen Scott and Gothard the matter was referred to Supt. Watson for report, following discussion on a communication from the Wetaskiwin

(Continued on Page 5)

## WATCH YOUR STEP OR IT MAY COST YOU A CENTURY

No person shall walk, drive any vehicle, or allow any horses, cattle or other stock, to walk or stray, over any boulevard within the limits of the city of Wetaskiwin. No person shall in any way injure any tree, shrub, flower or grass on any boulevard or in any grass plot along any street or public place within the city of Wetaskiwin or in any park or cemetery within the limits of the said city. That's the text of By-law No. 613, passed on Tuesday evening by the city council, and there's a penalty attached to not exceed a fine of \$100, exclusive of costs.

## Town Topics

S. I. Poole was a business visitor in Edmonton during the fore part of the week.

Mrs. William Brown left on Friday evening last to take up residence in Winnipeg, Man.

Miss Myrtle Wallin, R.N., of Portland, Ore., is visiting at the home of her brother, C. W. Wallin.

Dr. Gallekson has purchased the Knight property and expects to take possession the middle of July.

Miss Mildred Higgins, who has spent three weeks visiting friends and relatives in Kadas, returned to the city last Sunday.

The staff of the Wetaskiwin Public Hospital are giving a dance on Friday evening in the ballroom of the Dillard hotel for the purpose of raising funds to assist in furnishing the hospital.

A. H. Martin recently completed a basement and concrete foundation on Dickson Avenue and has moved a residence into place upon it. He is now making a substantial addition to this house.

Grover Dombke of Blithem Lake, while working on his farm on Tuesday, was thrown from the seat of his sulky plow and broke a couple of ribs. He hopes soon to be able to resume his work on the plow.

J. J. Christopher, Wetaskiwin merchant, was kicked by a horse on Wednesday evening last and is now nursing a broken leg in the Wetaskiwin hospital. He is making good progress and expects to be back to his business very shortly.

The meeting of the Women's Missionary Society of the United church, which was to have been held at the Mission House at Hobbema convened on Tuesday evening at the home of Mrs. A. B. Lord owing to the bad condition of the roads on the reserve following so much rain recently.

## RAILWAY COMMISSION PUTS IT UP TO CITY FATHERS

At Tuesday's city council meeting a communication was received from the Secretary of the Board of Railway Commissioners reporting that investigation had been made into a recent auto accident at the railway crossing here, and suggesting that the city undertake the installation of an electric light in the immediate vicinity of the crossing. They advised that the erection of a protective gate would be a costly undertaking and that in the division of responsibility as to maintenance would undoubtedly eat deeply into the coffers of the city. Some of the aldermen were deeply of the opinion that the ever-increasing public traffic demanded the erection of gates, and the prevailing opinion appeared to be that an electric light at that point would but feebly serve any purpose. The matter was referred to committee for further report.

Newcastle, New South Wales, is the greatest coal shipping port in the Southern Hemisphere.

The world's highest railway is in Peru, and is 15,665 feet above sea level.

(Continued on Page 5)

## Karnival Krew Busily Engaged in Preparation

Preparations are now rapidly nearing completion for the Community Carnival to be held in the city on Monday, Tuesday and Wednesday, July 2, 3, 4. The fun and frolic at the curling rink each evening will be faster and more furious than ever before, if Secretary McMurdo has the dope right—and he should know. The attractions which have been selected are all of a high order, with new games at some of the many booths, while the merchandise on display will appeal to the most fastidious eye. The dance floor will be in first-class condition and the music will be of the most enticing strain.

Earl Linslog has some real surprises in store for the hundreds who are expected to take in the sports at the Fair Grounds each day—and with Edmonton, Red Deer, Innisfail and other well known teams tossing the pill around, tall doings may be anticipated.

The decoration of the rink will command the attention of the committee next Wednesday, and all booth managers are asked to be on deck, along with their assistants. On Monday evening a volunteer sawdust shovelling brigade will be whipped into line at the rink, and everybody is welcome to join in the exercise.

## Weddings

### LINDEN-SCHWARK

On June 20th, at 3 o'clock, Miss Lindon of Wynnewood and Augustus Schwark of Wetaskiwin, were united in the bonds of holy matrimony at Zion Lutheran church. The bridegroom was attended by his brother Hugo Lindon, the bridesmaid being Miss Emma Schwark. A large number of friends and relatives witnessed the ceremony.

### PRETENTIOUS ALTERATIONS TO GEO. LOWRY PREMISES

George Lowry Ltd., are making the necessary alterations in the premises recently occupied by the Liquor Vendor, so that their stock of groceries may be moved upon the shelves. The corner store so long occupied by J. J. Christopher, will be vacated by him at the beginning of July, when the partition between it and the present Lowry store will be torn down so as to make plenty of accommodation for the stock of men's furnishings and dry goods. This will provide ample accommodation for their growing business.

### WETASKIWIN DELEGATES ON EDMONTON PROGRAM

Mayor H. J. Montgomery and City Clerk J. E. Fraser left on Tuesday night for Edmonton to attend the annual convention of the Union of Alberta Municipalities. The convention met at 10:30 Wednesday in the MacDonald Hotel. Mr. Fraser was billed to speak at the opening session, and along with Mayor Burg of Edmonton and Mayor Osborne of Calgary, was to have spoken upon the subject "Municipal Ownership of Public Utilities."

Mr. Armand D. Stade, a recent graduate of McMaster University, has come to the Brightview District for the Brightview Baptist Mission. At the summer and will take charge of the close of his work there, he expects to proceed to Rochester, N.Y., where he will enter the Seminary for his theological course.

## House of Commons and Tariff Reform

By WILLIAM IRVINE, U.F.A. Member for Wetaskiwin

The Parliament of any country elected by a majority vote of its citizens is and in fact must be as a general rule the last place from which a real reform could be expected. Parliament is a register of public opinion. That fact must be faced even though at times we may not think much of the opinion which it registers, nor agree with the methods used in developing the opinion. Governments, therefore, seldom initiate anything of a fundamental character, and any proposal which has not the sanction of the past or which has not been urged by the people in some manner receives scant consideration. And yet it is impossible to initiate a real reform in Parliament nor would such a possibility be contrary to the

democratic theory upon which our Parliamentary system is based. For one member elected perhaps on an issue which as yet may be scarcely heard of in the country as a whole, not only has the authority of his people for introducing it, but may, through bringing it to the attention of the House, gain for it acceptance among the general public. The finance question in our own Parliament is a case in point.

An Arresting Challenge in 1923. During the enquiry into the basis, function and control of financial credit which ensued as a result of my resolution in 1923-24, the left wing of Parliament fought a lone and discouraging battle. True we were able to explode some of the theories which

## STEALING-NEIGHBOR'S OATS PROVES COSTLY TO FARMER

On the night of the 17th inst, the granary on the farm of Theodore Malinas was broken into and about 15 bushels of oats stolen.

This case was investigated by Sergt. Broadbitt of the A.P.P., who traced the oats to the farm of Ed. Madu close by and from there to the elevator at Millst where they had been sold by Madu.

The latter was arrested by Sergt. Broadbitt in Leduc the same morning and brought before Magistrate Williams charged with theft of these oats. Madu pleaded guilty and was fined \$200 and costs.

## Town Topics

J. N. Schreffels of the Chevrolet Garage, is installing a new gasoline tank.

Mr. Arch. D. McInnes of Van Kleek, Ontario, is spending a few days with Mr. and Mrs. George D. Wallace.

Improvements are being made to the platform and flour mills of the Western Canada Flour Mills Co. Ltd.

Mrs. A. G. Austin and her son, Douglas, of Calgary, are visiting in the city at the home of her sister, Mrs. (Dr.) T. B. Stephenson.

George A. Doupe of Grand Prairie, spent the weekend in Wetaskiwin visiting at the home of his mother, Mrs. A. Doupe. He reports car conditions in the Peace River country to be first class.

Mr. and Mrs. A. J. Jensen left on Saturday for a vacation trip to Victoria, San Francisco and other points. While in Victoria they will visit their daughter, Mrs. A. E. Mages, formerly of this city.

On Friday night last, the Wetaskiwin Farmers' Exchange was broken into and several revolvers were taken—two Colts and three smaller automatics and some small change from the till. The culprit has not yet been apprehended.

Dane Anderson and C. Draeger made a 25 mile trip on Monday to deliver a tractor west of Hobbema; they found the going so heavy once off the highway that it took nine hours to make the round trip. The heavy downpour of rain during the last few weeks has made a slough of every depression in the trails on the reserve.

J. J. Christopher, who for seventeen years has carried on a grocery business in Wetaskiwin, has decided to leave here and locate in Westlock. The lease of his premises would expire next year necessitating his looking for new quarters, so that opportunity beckoning at the present time to Westlock, he has decided to leave at once. He expects to vacate his present premises at the beginning of July.

### HAS A NARROW ESCAPE AT NEW POOL ELEVATOR

A most remarkable accident and escape from death befell Robert Ketchin, 11 year old son of W. Ketchin, on Sunday at the noon hour. With three young companions he went over to make an inspection of the new pool elevator. Entering the building he noticed the lift used by the workmen to convey themselves and their supplies to the top. Stepping upon it, one of his companions is thought to have released the lever which sent the lift and boy shooting to the roof of the building, where he evidently struck his head against a 2x4 scantling, descending with the lift. He was picked up badly bruised and conveyed to the hospital where, after a careful examination under the X-ray, it was found that no bones were broken. He returned to consciousness late Sunday afternoon and is now around again.

Paul Kramer of Angus Ridge, sustained an injury to his shoulder in a game of baseball between Angus Ridge and Hobbema, at Angus Ridge.

## Courage and Initiative Is Evidenced in Erection of New Home for Elks Here

**Says Deputy Heller of Edmonton at the Opening of the New Hall—Many Visitors in Attendance and Make Congratulatory Speeches—A. H. Martin Elected Leading Knight—New Officers Are Installed**

### NEW BY-LAW PROVIDES FOR CONSERVATION CITY WATER

Don't lend, sell or dispose of any water from the city system on your premises, or give water away or permit it to be taken or carried away or use or apply it for the use or benefit of others; nor through improper neglect or otherwise waste such water. It is an infraction of By-law No. 614, passed by the city council on Tuesday evening, and a fine of up to \$20 or a month's imprisonment is involved. You cannot use the city utility for watering lawns or gardens except between 8 and 10 in the afternoon; nor sprinkle any street or streets whatsoever; neither are you allowed to use the city system to wash your automobile except between the hours of 8 and 10 in the afternoon; provided the latter clause shall not apply to garage owners and others who make a business of washing cars, who secure permit from the City Council, which privilege may be restricted as circumstances may necessitate; a fine of up to \$100 or imprisonment is provided for.

### COUNTRY PEOPLE WELCOME TO ENROLL AT PUBLIC LIBRARY

The newly-instituted Wetaskiwin Public Library has to date issued seventy-seven membership cards, and since the opening a week ago Saturday over two hundred ad fifty books have been taken from the shelves. Librarian Fraser and the members of the Library Board are highly pleased with the interest which is being taken by the citizens, and many words of commendation are being received upon the manner in which the institution was inaugurated and is being conducted. The Library Board desires to encourage the people, old and young, of the surrounding district, to become members and take full advantage of the facilities offered to secure books from the shelves.

### VISITING TRUCK DRIVERS WILL HAVE TO COUGH UP

Delving into the archives, Solicitor Russell discovered that in 1923 By-law 467 was passed by the city council providing for a license fee of \$15 for truck drivers operating from without the city as well as within. At last Tuesday night's meeting of the city council it was considered that further regulations should be introduced with respect to the collection of this fee from local truck drivers. The Chief of Police was instructed to collect the \$15 fee from all visiting truck drivers and the Police Committee will consider the formulation of regulations dealing with the collection of a fee from local truck drivers.

### SAMPLE OF FALL RYE WILL TAKE SOME BEATING

A sample of fall rye, which stood five feet five inches in height, was brought to The Times office by J. L. G. Rattray of Falun. The ear was headed out in May. This is but one of the many examples constantly being received of the fertility of the soil in the Wetaskiwin district.

## Signing of Magna Charta Is Topic at Immanuel Church

June 15th, the anniversary of the signing of Magna Charta in 1215 by King John was made the occasion of a special sermon by Rev. P. C. Wade in Immanuel church on Sunday evening.

Using as his text, Isaiah 61: "In the year that King Uzziah died I saw also the Lord sitting upon the throne high and lifted up," the preacher showed that the vision of the Old Testament prophet indicating a great trust, a great opportunity and a great hope had become concrete in the life of the British Commonwealth, dating from the signing of Magna Charta at Runnymede.

This priceless document was drawn up by Archbishop Langton and its skillfully worded provisions have become the foundation of our liberties, the bedrock of our freedom. Mr. Wade reminded his congregation that the Great Charter laid down the principles that no man may be punished without a fair trial; that punishment must be proportioned to the offence, and that justice may not be denied, delayed nor sold, and in conclusion expressly guaranteed the freedom of

### Tuesday evening saw the opening of the new Elks hall.

Over a hundred members of Wetaskiwin Lodge No. 91 with a large visiting contingent from Ponoka and Deputy Heller and Exalted Ruler Mellich of Edmonton, gathered in the newly built hall of the local Elks to celebrate an event which marked an important step forward in the development of the local lodge. Only a few months have elapsed since the lodge was forced to leave their old quarters, and as Deputy Heller pointed out, courage and initiative were required to undertake and carry to a successful conclusion the building of a new home.

In his prefatory remarks Exalted Ruler Howatt pointed out the difficulties which had been overcome in order to procure the present quarters, and especially, congratulated the building committee whose efforts had met with such signal success. He also stated that it is the intention of the Elks to go ahead with the hall to be erected at the rear of the new building without loss of any time.

Deputy Heller of Edmonton, upon being introduced to the gathering, made a congratulatory speech, telling his audience that he had been present when Wetaskiwin Lodge was opened and that on that account he had taken an unusual interest in its progress and welfare. He stated that he was satisfied that for energy and enthusiasm this lodge could not be beaten in Alberta, and that their success in their building venture was striking evidence of their quality.

Owing to the departure from Wetaskiwin of John Hay, the inauguration of several new officers was necessary. This ceremony was conducted by Deputy Heller. A. H. Martin was elected to the office of Leading Knight, Earl Linslog to that of Loyal Knight and Peter Ryan to that of Esquire. Congratulatory speeches followed by Exalted Ruler Mellich of Edmonton and a number of the visitors from Ponoka, Leduc, Stuar, Campbell favored the gathering with a number of much appreciated songs and after the usual concluding refreshments the meeting dispersed.

### WETASKIWIN MAY PURCHASE ROAD GRADER OF ITS OWN

The city is without a road grader with which to confront a condition on the streets which is generally conceded as being far from satisfactory. Considerable important work has been done in the past with borrowed machinery, which is, however, not available at this time. True, adjoining municipalities are obliging when possible, but they've got their hands full themselves. The situation was discussed at the city council Tuesday evening, and Aldermen Scott and Ingles in particular were outspoken in their thoughts that something must be done, the former being very pronouncedly in favor of purchasing equipment which could be relied upon to serve for years to come. Second-hand machinery and new machinery of all sizes and makes were talked of, and the upshot was that the Public Works Committee was instructed to bring in a report at the next meeting.

## Signing of Magna Charta Is Topic at Immanuel Church

June 15th, the anniversary of the signing of Magna Charta in 1215 by King John was made the occasion of a special sermon by Rev. P. C. Wade in Immanuel church on Sunday evening.

## DISTRICTS EXHIBITS AT EDMONTON EXHIBITION

N. E. Alexander of Edmonton, field representative of the Edmonton Exhibition Association, was recently in our town, interviewing a number of our more public-spirited men with the object of having our electoral district represented in the Edmonton Exhibition District Exhibits Competition, and we are glad to report that there is every prospect that our district will put up a fine display at the Edmonton Exhibition this year.

This District Exhibits Competition was inaugurated by the Edmonton Exhibition Association in 1926 with four very fine exhibits from Vermilion, Sedgewick, Wetaskiwin and Leduc.

Last year there was 100% increase in the number of exhibits, showing that those taking part were more than well satisfied with the benefits received.

Favorable comments have been made and quoted in the press not only all over North America but in the Old Country. These district exhibits, therefore, give a great deal of publicity to the districts represented, demonstrating in a concrete fashion the possibilities of Northern Alberta along agricultural lines. A great deal of interest is taken in these exhibits not only by residents of Alberta and our sister provinces but by visitors from the United States and overseas, and we are safe in saying that these exhibits are responsible in no small measure for the present increased interest in the agricultural industry and possibilities of the northern part of the province.

For the purpose of this competition the geographical unit used is that of the provincial electoral constituency and the competition is limited to those situated north of Red Deer. The local Boards of Trade, agricultural societies, U.F.A. and similar organizations co-operate in securing material and making arrangements for putting on these exhibits, and one constituency, Sedgewick, has been so thoroughly convinced of the value received that they have organized what they call The Sedgewick Constituency Exhibit Association.

A change has been made this year from previous years in that no district agriculturist or member of a government, railroad or municipal agricultural institution may give active assistance in setting up an exhibit and no products of such institutions may be included.

Entries for this competition close July 3. The winner of first prize will receive the Provincial Dept. of Agriculture Challenge Trophy, the John Christie Challenge Cup and \$150 cash. Other prizes ranging from \$125 down to \$30 will be awarded to the next seven winning the highest number of points in the competition.

South Australia has the largest silver-lead smelting works in the world.

## The Power of the Pool Lies in Volume Control

The Canadian Wheat Pool Now Handles  
ONE FOURTH of the World's Exportable  
Wheat Surplus.

The Wheat Pool has given ample evidence of its usefulness to wheat growers since last harvest. Faced with the handling of a damaged crop and with a large increase in world production, the Pool has been successful to a considerable degree in preventing disastrous slumps. Every wheat farmer in Western Canada owes a debt of gratitude to the Wheat Pool.

The power of the Pool lies in its control of volume. Every bushel placed in the Pool means greater strength. The organization needs YOUR assistance.

The ideal of co-operation is working together for the common good. It is opposed to any system that makes a profit on the result of the labors of the producer. Its operations mean more wealth for all the producers.

Co-operation is not only a sentiment but an economic necessity. Let the hearts and minds of our farmers become enthused with its ideals and there is hope for the economic future of agriculture.

You who have not signed the Second Series Wheat Pool Contract gain nothing by delay. You only endanger the welfare of an organization that has proven the best friend the farmer has ever had.

## SIGN A POOL CONTRACT NOW

Protests against funerals being held on Sunday have been made to the city commissioners of Edmonton by a delegation of funeral directors and representatives of the Ministerial Association. The only exception allowed by the delegation would be in the case of burial being ordered immediately by the health department. Calgary already has taken this step.

## YOU TELL 'EM WETASKIWIN

A few months ago a "You Tell 'Em Alberta" campaign was launched and was carried on with much vigor for a time, but lately the slogan seems to have gone to sleep.

It was a good slogan for the Province as a whole and in its stead there might well be developed a lusty family of slogans covering the whole of Alberta—one for every community fortunate enough to boast of a Board of Trade or a local newspaper.

Alberta is all right. As a Province it has no peer. And within the Province certainly there is no district superior to—to be quite modest—the Wetaskiwin District. No doubt any other local newspaper in almost any

other section of the Province would quite enthusiastically make the same assertion regarding its own home community.

Still to prove our contention. We have a well kept town, well planted with some of the best grown trees in Alberta, with home-like residences and gardens, with light and running water in each home; a well settled surrounding country with a ready market for every product of the farm; flour mill and grain elevators, a couple of creameries; shipping facilities for stock, of which large quantities go out each week; good train service; good schools; and as for churches we should be the best behaved people on the globe, for there seems to be a church on every corner as well as in the middle of each block.

We have good stores, well managed, so that the purchaser gets the worth of his money and is saved the inconvenience of travelling to the larger city or of sending a money order to the mail order house. And keeping all in good running order we have on every side a boundlessly fertile soil which never fails year in and year out to produce the best possible crop.

Is there then to be found anywhere a better place for home, business or farm?

## CO-OPERATION

We publish in our columns this week a letter from a resident of the Millet district, and presuming that he is a farmer, are glad to see that an era of free speech is once more returning to Alberta. Prior to 1921, the agricultural community was extremely loud in protest against inequities of governments, of combines of every kind and particularly against the Canadian Manufacturers' Association.

The farmers of Alberta having taken a leaf from the book of the C.M.A., organized to work for their own interests, instead of looking to other people to do so. Then they went a step further and took over the reins of government in Alberta. In order to maintain their party in power they refrained from criticism, so that after seven years of silence there seems real danger that the power of speech has deserted them.

We hardly agree with our correspondent that the U.F.A. has failed in its task of administering the affairs of the Province, for all along, facing real difficulties, they have given us an hon-

est administration. At the same time they have regarded with much irritation and a peculiar air of injured innocence that free criticism of their work which, as private members of the U.F.A. they meted out to former governments.

Indeed, using the term co-operation, as their watchword, their policy has been simply to ignore as far as possible those who refused to see eye to eye with them in all things, to frown upon any criticism from their friends, while at the same time they carried on their duties very much as any other body of well-meaning citizens would have done.

## THE COMMUNITY CARNIVAL

The attention of our readers is directed to the Community Carnival being staged jointly by the Kiwanis, Elks and Wetaskiwin Sports Association on July 2, 3 and 4.

Every effort is being made by the committees in charge to make these days well worth while for every fan seeking for miles and miles around. There will be a baseball tournament over the three days with games each day. These, in themselves, will attract many visitors, as teams will come from many points east and south. There will be as well grandstand attractions and races. Every evening at the curling rink the carnival attractions are certain to draw large crowds.

[This is the most pretentious effort of the year to provide a real holiday season festival for the people of We-

taskiwin and district. It is bound to be worth while and will attract many visitors.

## HANDY TEST TUBE

The professor, a noted botanist, gave instructions for a dish of mushrooms, which he had gathered himself, to be cooked for dinner, expressly for his wife. The latter, who was particularly fond of them, was highly delighted at her husband's thought on her behalf and thanked him with much gusto. At breakfast next morning he greeted her anxiously:

"Sleep all right?" he inquired.  
"Splendidly," she answered.  
"Not sick at all—no pains?" he persisted.

"Why, of course not," she responded in surprise.  
"Hurrah, then," exclaimed the professor. "I have discovered another species of mushroom that isn't poisonous."—The Tailor (London).

## Pains in Back Followed a Serious Operation

Mrs. E. Blood, Socrates, Sask., writes:—"I had gone through a serious operation which left me with a bad pain in the back.

"After trying many different remedies without getting any relief, my sister asked me to try Doan's Kidney Pills as they had helped her so much.

"I took a box and felt so much better I took three more.

"It has been nearly four years ago that I took them and I have not been bothered with my back since."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. M. L. Co., Limited, Toronto, Ont.

## COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times,  
Dear Sir:

When the U.P.A. government was elected in this province their election plank was "a square deal for the farmers." Was it not? In their road policy East and West of Wetaskiwin as aired in your issue of June 14, a square deal for either the farmers on those roads or for the people of Wetaskiwin? I should say it is not.

By their deeds ye shall know them. And the judgment will be that the

U.P.A. Government of Alberta has not brought Utopia to this province any more than the Ramsay MacDonald Government did to Great Britain when the Labor Party came into power. Both the U.P.A. and the Labor Government in Great Britain found out that they had to "play politics," that the financial interests predominated and that the cities can swamp the will of the rural population every time.

In other words, the U.P.A. in politics are no better in politics than the old Conservative or the Liberal or the Labor man. And maybe they are worse.

If the U.P.A. had confined themselves to sponsoring the Wheat Pool movement and had kept out of politics, they would not have brought political

animosity and antipathy to bear against the Alberta Wheat Pool, such as is the case today. If you don't believe it, ask the farmers. The people do not stop to discriminate and because they are sore with the U.P.A. for its government and its political tactics, they refuse to have anything to do with the Alberta Wheat Pool, which is a perfectly legitimate movement—albeit it is an offshoot of the hated U.P.A. Co-operation is a great thing, but co-operation will not mix with politics. So when a co-operative movement of the farmers tries to run the country and the government, they are bound to fail, just as the Drury Government in old Ontario went down to utter defeat. If the farmers co-operate and keep out of politics, they are bound to be more successful, as they can then hope for some co-operation from Conservative and Liberal as well, and more farmers might join the Wheat Pool. But it would never do for the Wheat Pool to be a monopoly any more than it would do for the Canadian National Railway to be a monopoly, or for the government to have a monopoly of the banking business, or for the government in any country to ever have a monopoly of the liquor trade, or for any one class such as labor or the farmers to have a monopoly of government.

Competition is the soul of trade, even if it hurts as bad as the motor trucks hurt the C.P.R. Government ownership is all right within limits. Popular ownership has its limitations, and one of these is that it is less efficient than private ownership because it has to play politics.

Yours truly,  
FRED H. NICHOLS.

Millet, Alberta.

## PUBLIC OWNERSHIP AND PRIVATE CONTROL

To the Editor of The Times:

Booth Tarkington, a distinguished American writer, says: "State ownership, in his country particularly, in reality means control by politicians, a smothering bureaucracy that is not economical."

And yet it is from this source C. J. Yorath, of the Midwest Utilities corporation, draws when he attempts to combat Mayor Montgomery's opinion on Public Ownership and Private Control.

Mr. Yorath failed to mention a great and outstanding instance of successful, efficient and economical operation which has been achieved by a publicly owned utility in our own country. I refer to the Ontario Hydro Electric, whose extremely low rates for light and power are both the envy and despair of consumers in the United States.

Efficient and economical service by publicly owned utilities depend largely on the measure of its independence of predatory politicians.

The Ontario Hydro-Electric Commission produces and distributes light and power at less cost than the best privately owned interests can achieve, and leave themselves a profit to divide.

The present condition of our Canadian National Railway system is another example of efficient and economical operation of a great publicly owned utility.

Given integrity in high places, and independence from purely political control, it is possible to render services from publicly owned utilities quite as efficiently, economically and as satisfactorily as any private interest seeking private profits. When Mr. Yorath quotes American experiences, in which country more tolerance is shown toward corrupt politicians, his argument ceases to be either pertinent or of value, for the experiences come out of conditions which are not

## HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melling, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for weeks in white, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

Put up only by The F. Milburn Co., Limited, Toronto, Ont.

## C. P. R. Crop Statement Is Favorable to Whole West

Winnipeg, June 18.—Cool weather throughout the West during the past week has created a condition very favorable for the development of a good root system whereby grain will stand up well in a period of drought, according to the weekly survey of crop conditions throughout the prairie provinces issued from the Agricultural Department of Canadian Pacific Railway here today. Entire West was again liberally supplied with rain during the week and is sufficient to carry crops through period of drier and warmer weather. Such a period would be welcome as growing would be gone more rapid. All crops showing thick healthy stand. Recent rains brought late sown grain along to even stand and have germinated seed in lighter soil which has lain dormant. Crops have gone in good time and this has given farmers every opportunity to push summer-fallowing so that this activity is more advanced now than at this time in most seasons. Fall rye headed out in some districts, but taken as a whole crop is expected to be light. Hay crop seems assured with sufficient moisture to bring it along. Pastures are good with livestock looking in good condition.

Crops made excellent progress during the past week in Manitoba. Moisture received generally came in steady rain and was easily absorbed by the soil as it fell, so that except in a few spots there has been no flooding. The whole province now has plenty of moisture. Grass is abundant and hay crop doing well. Cattle and all stock on grass in good condition and so far there has been an absence of flies and mosquitoes to annoy them. Crops have suffered no damage from insects or pests of any kind and prospects just now look the best this province has had for a good many years.

Rains in Saskatchewan coming along they did just after exceptionally good seedling weather has resulted in crops being in fine condition and showing great promise. In South central portion of province due to dry conditions late seed was slow in germinating and stand has become somewhat uneven, but with continued moisture conditions now prevailing, this crop has every chance of making up for time lost. Good crop of hay is expected as grasses did not suffer to any extent during past dry spells. Damage from outcrops insignificant to date. Appearance of tree caterpillars in the vicinity of Lloydminster has been reported and willow and poplar trees have been stripped bare. Tent caterpillars, however, are known not to damage crops. Few good fall rye crops reported, but generally this crop will be light.

Weather conditions have been very favorable in Alberta during the past week. Both wheat and coarse grains coming along well and insofar as color and germination are concerned, have seldom been in better condition than at the present time. Some early wheat is already in shot blade. All sections have received rains since last report and there is sufficient moisture to carry crops for two or three weeks under normal weather conditions. Rye heading out on short side, but may improve with recent rains. Pastures are in excellent condition for stock, which is thriving. Reports indicate great amount of new land will be broken

throughout province this season. First hail storm of season completely wiped out 5000 acres of wheat in district of Einsen on the morning of 15th, also 1200 acres in Acme district. Most of this grain will recover, but of course will be late.

Cool weather with showers has prevailed in British Columbia. Although vegetable and root crops were put in about 10 days later than usual they have fully made up for lost time, owing to excellent condition of soil. Warmer weather would hasten growth and assist ripening of berries. Small fruit crop promises to be heavy with possible exception of raspberries, districts have suffered from frost, which in Salmon Arm and few other Strawberries are considerably earlier than last year, with good prospects of large yield. June crop is still on, and is heavy, in spite of this prospects are that apples will yield heavily. Cherries and soft fruits promise well in every way.

## SPORTS

### PONKA CARNIVAL GIVES LOCAL TEAM CHANCE TO SHOW THEIR STUFF

The Elks' Carnival at Ponka last week covering four days commencing on Wednesday, attracted a large number of visitors, and naturally Wetaskiwin people were there in large numbers. A soft ball tournament among Elks teams from Red Deer, Lacombe, Ponka and Wetaskiwin was one of the attractions of the opening day and gave the Carnival a good start-off.

The first game between Ponka and Wetaskiwin was called at 3 p.m. This proved a well fought contest and was won by Wetaskiwin with a score of 15 to 10.

The second game followed close on the heels of the first at 4:30 but was not quite so close, the score indicating the disparity in the play. Red Deer won from Lacombe 11-2.

The final game at 6 o'clock was the closest and most interesting of the three. Here Wetaskiwin succeeded in trimming Red Deer to the tune of an 8-7 score. Best goal medals to attest their prowess were brought home by the Wetaskiwin bunch.

### DIAMOND DUST

The local senior ball team journeyed to Bashaw on Wednesday to take part in a tournament, which was won by Ponka. Results—Bashaw, 3; New Norway, 2; Ponka 5; Wetaskiwin, 2. Final game, Ponka 7; Bashaw, 1.

The Moose team was defeated 9 to 7 at Hobbema in a U.F.A. league game. Nelson occupied the mound for the lodge boys.

The local soft ball league has been unable to operate during the past week on account of unfavorable weather.

The Red Deer 7 ball team defeated the local juniors here last evening.

### HOUSE OF COMMONS

(Continued from Page 1)  
Of course conditions in other countries, especially in Great Britain and the United States, have assisted greatly in the change of attitude above noted. In 1923 the Labor Party of Britain rejected the analysis of the major Douglas, who practically endorsed the financial theories of orthodox economists. But on the 17th of April, 1928, we find a very decided change of opinion. The Conference between Labor and Capital submitted on that date a memorandum to the British Government signed by Sir Alfred Mond representing the Capitalists and Ben Turner for Labor.

Chief emphasis on Credit Policy  
In this memorandum the chief emphasis is placed upon the problem of financial credit. It advocates a greater elasticity of credit and requests the Government to institute a full enquiry with a view to devising the best sort of credit policy for Britain and that this shall be done at once before any other step is taken. Mention should also be made here of the work of Right Honorable Reginald McKenna in his influential capacity as Chairman of the Midland Bank. He is one of the few bankers of the world who knows what the proper function of a bank should be and who understands the economic significance of improper credit control. He uses his opportunity in making his annual address to the shareholders, to analyze the credit problem and to urge a better system. He wants a system in which trade shall determine credit issue rather than a stupid gold basis which has no intelligent relation or connection with any thing of importance.

Gold Basis Disregarded in U.S.A.  
Meanwhile, things are moving in the United States. The Central Reserve Bank in its efforts to prevent inflation has been forced to disregard the gold basis and as McKenna says in respect thereto, "the effect of inflating gold has been nullified in accordance with the dictates of policy"—"and credit was actually increased in

response to the needs of business" and not as heretofore in response to the presence of gold. And further, Mr. McKenna says in respect to what has been going on in America since the war:

"The American price level is not affected by gold movements, but is controlled by the policy of the reserve banks in expanding or contracting credit. It follows, therefore, that it is not the value of gold in America which determines the value of the dollar, but the value of the dollar which determines the value of gold."

Congress to Inquire into Reformers' Proposals  
And while this "heresy" is being practised by the Reserve Bank, another interesting investigation is going on in America. I understand that Congress is going to investigate the suggestions of Foster and Catchings in connection with finance. These writers on the subject claim that alternating periods of prosperity and depression are inevitable while there is no means of putting into the pockets of consumers sufficient purchasing power to buy out production at any given moment. They hold that the manufacturer must ask, in order to make a profit, more for his output than he paid out in production, and since the only means consumers have of obtaining purchasing power is through the money paid by the manufacturer in the process of production, there must remain of any given output a surplus which consumers have no money to buy.

This surplus of goods, which is chasing power grows gradually until the factory has to close down and depression becomes acute. That Congress has decided to enquire into the problem is in itself of great significance. Financial Reform and the Session of 1928  
The above reference to the growth and spreading of an idea brings me to our own efforts in the present session of Parliament. Mr. Woodsworth's resolution asking for the nationalization of the banks, which was moved early in the session, was in danger of being defeated. At his request I moved the following amendment in order that we might be able to get the matter before the Committee on Banking and Commerce:

"That in the opinion of this House the time has come for the consideration of the improvement of our banking system and that the Banking and Commerce Committee be instructed to study possible improvements and report thereon."

My amendment carried, the committee investigated and has just made its report which Parliament has endorsed.

The whole proceedings of this enquiry have been published and should be interesting in many respects. If a perusal of the proceedings of the committee in connection with the issue does not enlighten, it should at least reveal the psychological attitude of bankers and parliamentarians to the suggestion of Social Credit.

H. E. Spencer's Work in Parliament  
Mr. Spencer, M.P. of Battle River, deserves great credit for his diligent, able and effective work as an advocate of Social Credit, and in particular for his work in Parliament in respect to the investigation just concluded. After much questioning and argument, I think Mr. Spencer has at last convinced the bankers that when John Jones borrows a hundred dollars from a bank that he does not borrow the one hundred dollars which John Smith has deposited on savings account. Rather than John Jones borrowed one hundred dollars of his own credit and made a corresponding deposit in the form of a security. Hence, every loan becomes a deposit and the theory of the bankers which might have been true in the infancy of banking is no longer true.

Those of us who are pioneers in the advocacy of credit reform have long expected that we will be taken up some fine morning to find the whole system of national finance organized on a Social Credit Basis. We know, on the contrary, how far we are from such a happy consummation, no matter how devoutly we may wish its immediate establishment. With every point, therefore, which we can force the bankers to yield to, reason robs them of an excuse for continuing their outworn system with its superflation for a gold basis, and with their private profit as an end rather than economic function. Men like Mr. Spencer are the heroes in a fight like this.

### REV. DR. McQUEEN

(Continued from Page 1)  
some of the old timers took the opportunity of renewing acquaintance with Dr. McQueen. Many remarks were overheard about the time he preached in a tent before Wetaskiwin boasted a church building, or the time he conducted service under some other more or less pioneer condition. Then too, if one were to judge by the many remarks about weddings in days gone by, people must have felt they were not married unless Dr. McQueen officiated at the ceremony.

We are informed that Dr. McQueen intends to sail for Europe early in July. While in Europe he will visit his son's grave "in Flanders' Fields."

### CHIEF KINGZETT

(Continued from Page 1)  
Golf Club Limited asking that the account submitted to them be cancelled. Electrical Engineers acknowledged receipt of \$1,450 on account, but gently hinted that they had been expecting final payment and were a bit disappointed. It was pointed out that the department was not fully satisfied as yet that everything was in, tip-top order, and it was decided on motion of Aldermen Inglis and Gothard to delay making final payment a wee bit longer until opportunity was ripe to make the last debt.

On motion of Aldermen Gothard and Scott the report of the auditors up to April 30 was received and filed. The books and records are in apple pie order.  
A communication from K. C. McLeod, superintendent of the Department of Mothers' Allowance and Delinquent Children announced that reduction was being made in allowance to be paid to two citizens. The city, on motion of Aldermen Inglis and Scott will act accordingly, making similar reduction.

We're to have another juice joint in

### HOUSE PROPERTY FOR SALE

Edmonton, Alberta. 14-1tn 13-4t

our midst. J. N. Schorffels made application to install a gas pump and tank in front of his garage, and on motion of Aldermen Cook and Gibson the council acceded, subject to usual supervision.

Building alterations at the Lowry store will amount to \$500, and the new residence for Father Walravens will cost about \$4,000, according to applications for building permits, which were ratified on motion of Aldermen Gothard and Scott.

It was reported that over \$40 had been collected in fees for the caretaker at the cemetery, and communications were read from outside points commending the city for services being rendered.

One thing that held the city fathers in a happy mood was the reading of the account of City Solicitor Russell for the period from December last to the end of May, which totalled but \$48.75 plus \$5.45 for personal expenditures in connection with his duties. "Is the account reasonable," asked Clerk Fraser. "Exceptional," answered the Mayor. On motion of Aldermen Gothard and Inglis the account was passed.

### New Paving System

Chief Kingzett is to be sent out on the war-path as a result of a motion to that effect by Aldermen Scott and Gothard. It appears that some person or persons carried an assortment of broken window glass, etc., out to the vicinity of the nuisance ground and lavishly decorated the roadway in that vicinity. The chief was instructed to investigate and take action.

The Times' subscription list is open at all times for inspection by its advertisers. Remember this when you wish to advertise.

### VILLAGE OF FERINTOSH

#### TENDERS FOR DRAIN

Sealed tenders will be received by the Secretary-Treasurer of the Village of Ferintosh, up to June 30th, 1928, for digging, laying the tile, and filling a drain about 589 feet long, of an average depth of about 5 feet. For plans and further information apply to the Secretary-Treasurer of the Village of Ferintosh, of the Mayor. Lowest or any tender not necessarily accepted.  
H. S. SAMPFMAN,  
Secretary-Treas. Village of Ferintosh. 14-1tn

### HORSE BREEDERS ATTENTION!

Blain No. 12125 and Harrison No. 11675  
Will stand for the season 1928 at home at T. O. Pelland's farm, S.W. 22-45-28, W. 4th, and I will give you the benefit of the wages I would have to pay to men travelling these horses. Call phone R 608, Wetaskiwin for full particulars. Regarding Brilliant travelling west of Wetaskiwin for the season 1928. If there is any person dissatisfied with the manner in which the game is attending to his business, notify T. O. Pelland, this also applies to Delivery No. 11674, travelling in the Crooked Lake district.

T. O. PELLAND, Wetaskiwin.

### GWYNNE

Mr. and Mrs. A. Rupertus and Mr. and Mrs. E. Alun motored to St. Wall-burn, Sask., where they spent the week with friends.

A number from here were Camrose visitors on Tuesday.

Mr. and Mrs. H. Callies and Mrs. L. G. Larson and two sons spent the weekend at Battle Lake.

Mrs. W. Barker has returned home after spending the past six weeks at the Coast.

A farewell party was held at the home of Mr. and Mrs. J. McKennie on Monday evening to bid goodbye to Mr. A. Magnusson, who is leaving for Chauvin, Alberta. After playing progressive whist, lunch was served. Mr. Maynard made a speech regretting to have Mr. Magnusson leaving our vicinity. He was presented with a club bag from the Gwynne friends.

Mrs. J. Fowler spent the weekend at the home of Mr. and Mrs. Fred Freeman.

Dark-skinned natives—glowing sunlight—cool mountain tops—great ships ploughing through tropic seas—these things all come to mind when a cup of "SALADA" is steaming before you. Such flavour—such fragrance. Try "SALADA".

## Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, Contracts Let for Southern Highways, and the 30 miles between Macleod and Pincher.)

Tenders will be called for within a few days on another section of road between Stirling and Lethbridge, which will practically complete the season's program in the south of the Province, with the exception of a number of short links connecting up various sections of the main highways.

Construction work is also expected to start shortly on the Wetaskiwin Camrose road, 28 miles in length, following the route laid out by the Department of Public Works.

School Land Sales Advertised Auction sales of Federal school lands will be held at a number of points in central and northern Alberta during the next few weeks, according to official information recently received from Ottawa.

The list of dates set for these sales is as follows: Provost, June 25; Cor-

onation, June 28; Stettler, July 5; Red Deer, July 6; High Prairie, July 10; Falher, July 11; Grand Prairie, July 14; Spirit River and Waterhole, July 16, and Borkyn, July 11.

New regulations as to the conditions of sale are being put into effect this year, the chief one being that one-tenth of the purchase price must be paid at the time of sale, instead of one-fifth, as was the case last year. The remaining payments are to be made in eighteen annual instalments, a reduction of one from the former arrangement, with interest at six per cent.

Alberta Crops Above Average Condition

Alberta's wheat crop this year is in better condition than the average for the past ten years, according to the report issued at the end of May by the Dominion Bureau of Statistics. Taking the figure of 100 as the ten year average, Alberta's spring wheat crop is shown by this report as 103, Saskatchewan's 98 and Manitoba's 105. In Ontario the average is shown as 97 and in Quebec, 100.

Alberta Beavers Shipped to Scotland A pair of beavers from Alberta have been donated by the Dominion Government to the Edinburgh Zoological Gardens. They were captured and conditioned in Jasper National Park, transported to Montreal, and shipped on the s.s. Cairn which sailed for Scotland on May 18.

Activity in Walnwright Oil-fields Confidence in the prospects for increased oil production in the Walnwright field is expressed by a party of Edmonton business men who visited the district during the past week. Keen interest was shown in the heavy flow of crude oil being produced on the Walnwright location and in the preparations for further developments by the Walnwright company and other firms.

Alberta Cattle Shipped Overseas Some 300 head of Alberta cattle, comprising the first shipment of live cattle to leave Canada for over a year for Great Britain, were loaded on board the s.s. Manchester Regiment at Montreal on Thursday last, having been shipped direct from Calgary.

Governor-General to Visit Peace River Country

A week's trip through the Peace River country during July is planned by Viscount and Lady Willingdon, according to word just received by Premier Brownlee. Their excellencies hope to leave Edmonton on their northern trip on July 15, going by train to Peace River, from there by motor to Dunvegan, thence by Hudson's Bay steamboat upriver to Pouce Coupe and driving back through the Valhalla district to Grande Prairie, from where they will return by train to Edmonton. It is the intention of the Government with the co-operation of various organizations in the north, to make the excursion into the northland a real event for the governor general and his party and to show them as much as possible of the farming districts where such marked development is taking place this season.

Many Districts to Show Exhibits Exhibits from a large number of districts throughout the Province will be shown this year at both Calgary and Edmonton exhibitions. As a result of the keen interest shown in these district exhibits in previous years it is stated that the number of localities represented in this way will be considerably increased in 1928.

In judging the exhibits points will be awarded for the best display of fruits, flowers, vegetables, roots, threshed and sheaf grains, forage crops, honey and other agricultural products and for the attractiveness with which the exhibit is arranged. A handsome bronze shield is offered by the Department of Agriculture for the highest-scoring district exhibit at each of the exhibitions, the shield to be won three times before becoming the permanent property of the district.

### SCARLET FEVER ANTITOXIN

During the past few years there was discovered a scarlet fever antitoxin which gives the same satisfactory results in the treatment of scarlet fever as have been secured in the treatment of diphtheria with diphtheria antitoxin.

Scarlet fever is caused by a certain disease germ which gives off a poison or toxin. It is this toxin which, in some cases, kills, and which in all cases does more or less damage to the various organs of the body.

The scarlet fever antitoxin counteracts the toxin. Given early and in sufficient quantity it not only cures but prevents the damage which may be so serious.

Those who are responsible for the care of children should appreciate that the life of the child, when attacked by sickness, may depend upon prompt treatment. Certainly, in two diseases, scarlet fever and diphtheria, every hour's delay endangers the life of the child.

In Canada there were 362 deaths from scarlet fever during 1926. This loss of human life is, of course, serious. In addition, there is a much larger number who recovered, some of whom are more or less permanently damaged.

Scarlet fever antitoxin, like diphtheria antitoxin, should be made freely and readily available throughout Canada for the saving and conserving of human life.

# Competitors Endorse Our Methods

## First in 1886 and Still Leading

HOLT WAS THE PIONEER IN THE COMBINE HARVESTER FIELD AND WAS THE FIRST TO BE EQUIPPED WITH THE SWATHING AND WINDROW PICK-UP METHOD, MAKING THE COMBINE POSSIBLE FOR ALL CONDITIONS IN CANADA

Holt Combine, with 1928 Windrow Pick-up Unit attached.

COMBINED 1110 ACRES Same Cost as 120 Acres Handled by Old Method

We threshed enough to know what the stooked grain would yield and could estimate approximately what it would cost us by this method and found that the one hundred and twenty acres handled by the old method would cost us a little more than the eleven hundred and ten acres combined with our "Holt" Combined Harvester.

Our experience in this, the worst year Alberta has ever known probably, for combining grain, has proved to our entire satisfaction that the swathing and pick-up way of handling grain in this section is going to be the most wonderful blessing that has ever come to Southern Alberta, and what is good here may be just as good wherever windy summers cause straight combining to be of doubtful advisability.

We have doubted if we could get as good grades as by the old method, but the man who managed the elevator tells us that our grain had graded higher than the average stationary threshing in this vicinity.

(Original Letter on file with the Western Harvester Co., Ltd.)

WE INITIATE--- OTHERS IMITATE!!!

Holt Combine Harvesters Can Meet the Following Conditions: Down Grain--Early Rains--Early Winter or Normal Conditions.

Ask Us About It at the Calgary or Edmonton Fairs

We surely have the right answer, or our competitors would not imitate our method--But it is not enough to use the best method--Use the

## HILLSIDE

Mr. Hemphill was a business visitor to Edmonton last week.

Owing to the disagreeable weather the clean-up day at the school grounds had to be postponed till June 29.

Wallace Marr and Charlie Robinson returned from Edmonton Wednesday, where they attended the Farm Young People's Week at the University.

The U.F.A. picnic held on the school grounds on Saturday last, was a successful affair. The shower of rain at noon did not dampen the spirits of the U.F.A., and all sports were carried out as advertised. The horse race drew a large crowd and was won by a Leduc horse, but in a later race Dexter, a local horse owned by Leslie Swartz, came first. The U.F.A. served afternoon tea and supper in their usual good style. The committees wish to thank those who helped to make this picnic such a success. Mrs. Hamilton of Conjugate Creek,

accompanied by her son Floyd and granddaughters Cecile and Lois, were visitors to the picnic on Saturday.

Those who attended the dance in the school house Saturday evening reported a good time.

Miss Lella Marr of Wetaskiwin spent the week-end at her home here taking in the picnic Saturday.

A number from here are going to the U.F.A. convention in Wetaskiwin on Thursday.

The recent rains have caused much rejoicing in the district. All crops are looking their best.

## ITEMS OF INTEREST

This year will see general elections in the United States, France and Germany, while Britain will probably elect a new parliament next spring.

The Canadian Wheat Pool is claimed to be the most successful and most powerful producers' co-operative marketing association yet established by the farmers of any country.

About fifty members of the British House of Commons purpose visiting Canada this summer. Some of them will probably be surprised to find how different we are from what they had imagined.

During the past ten years the Montreal Tramways Company is just \$1,200,000 ahead in its accounts because of street-car tickets which were bought and not used. The probability is that these tickets were lost.

Toronto had 13 fatal auto accidents during January and February of 1928, as compared with five during the same period of last year. We wonder if the working of Government Control has affected these figures?

The Manchester Guardian says that Moscow threatens to run fifty Communist candidates in the next British general election. We suspect that if the scheme is carried out Moscow will learn something more about England.

Wilbur Glenn Voliva, of Zion City, has gone on a long trip to demonstrate that the world is flat. We wish him success in his attempt to discover either his own ignorance or ours. It seems sure that something is flat, but it may not be the earth.

## MILLET LOCAL NEWS

Miss Ruth Gramer spent the week-end at her home in the city.

Mr. T. Winters, rural mail carrier, was towed in on Monday evening.

Millet district has been well favored with rain lately and crops are showing marked progress.

We hope that Eilda Van Valkenburg, who is sick at her home, will soon be about again.

Mr. de Alexandria is erecting a residence across the street, directly north of Mrs. Doane's home.

Mr. and Mrs. West, with Miss Kerr and Mrs. Graham, motored to the city on Monday afternoon.

A new sidewalk is being placed at the Imperial Bank corner and other improvements being added to our streets.

Miss Margaret Macdonald having completed her Normal school year in Calgary, arrived home on Friday afternoon.

Mr. and Mrs. Henry Browning left for North Battleford with Mr. and Mrs. Hunt during the past week. They purpose taking up residence in that locality.

At the baseball tournament at Gwynne on Wednesday, June 13, Millet won both games, taking the prize of \$25, defeating Camrose 8-3 and Gwynne 17-11.

Mr. and Mrs. West, Mr. and Mrs. S. C. Moen and little Joyce, had tea at the home of Mr. and Mrs. E. Smith following the Welsenthal church services on Sunday.

The baseball game on Saturday between Gwynne and Millet juniors was won by our local boys by a score of 9-5. Howard Olesen, pitcher; John Duchuk, catcher.

The new brick garage, which has been rushed ahead, is now open for business. The spacious building can accommodate a large number of cars.

Mr. Victor Nordquist, the proprietor, is always on hand and at your service.

The Millet school board announce a picnic at Millet, for Saturday, June 30. All district schools are invited to join.

A good program of sports will be held and refreshments served. Be on hand by 12.30 noon. A good time is expected.

Mr. and Mrs. A. H. Parker motored to Edmonton on Friday, June 8, taking their little daughter Ethel, to Alberta College, where she took her primary examination in music. She is a pupil of Miss McVey. We wish Ethel every success.

The Ladies' Aid of the United church will hold a sock social at the home of Mrs. J. O. Anderson on Friday evening, June 22nd. Refreshments will be served and a program presented, the proceeds to be in aid of the piano fund.

A very large congregation attended the Baptist church on Sunday last, when Rev. Dalhousie baptized ten candidates at Pipestone Creek. Following the first service, dinner was served to all in the church basement. The afternoon service was held in the church, the congregation being addressed by three speakers and a very fine service of song being rendered by the choir. Many were present from Millet, Wetaskiwin, Leduc, Edmonton and Fredericton.

NEUROUS SYSTEM  
WAS NEARLY WRECKED  
Could Not Sleep

Mr. E. M. Akerman, Melville, Sask., writes: "At times I was unable to do work of any kind."

"My nervous system was nearly wrecked; I could not sleep nights, and was troubled with cold sweats, and was compelled to lie on a sofa a good part of each night."

All medical aid seemed of no avail, so by chance, and the best of good luck I tried a box of your well known

MILBURN'S HEART NERVE PILLS

and after taking four boxes I can say that they did all you claim for them."

"I'm only sorry I did not try them before and escape lots of illness, and be money in pocket, but I did not believe in patent medicines, but I have since convinced myself that one should get the best on the market to get the best results. I will always recommend your medicine to all ailing friends, as I know they too will get the results they wish."

Price 50c. per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## THINK IT OVER!

Drudgery is a disagreeable thing, but it lies at the foundation of all great achievement.—Onward.

## WOMEN'S INSTITUTE

The Women's Institute met at the home of Mrs. W. Woods on Wednesday, June 13, with eighteen members present. The roll call was answered by Irish wit.

The Baby Clinic under the auspices of the Institute will be held in the Community hall on Tuesday, June 26, between the hours of 10 a.m. and 6 p.m. Mothers with children under six years of age are requested to bring them to the clinic.

The Women's Institute plans to hold a lawn social at the home of Mrs. H. Arnold on July 4th.

The next meeting will be held at the home of Mrs. H. E. Harkness on July 11th.

## OBITUARY

Earl Stanley, infant son of Mr. and Mrs. Stanley Scott, who passed away on Wednesday last, was interred in the Millet cemetery on Thursday, Rev. L. R. Macdonald officiating.

## SECOND INSTALLMENT INCOME TAX DUE JUNE 30

Those taxpayers who adopted the installment basis of settlement of their Income Tax liability which was due April 30th last, are reminded that the last day for payment of the second installment will be Saturday, the 30th inst., on which date one-quarter of the total tax due, together with interest thereon at the rate of 6% per annum for two months, is payable at the various district offices of the Income Tax Branch, Department of National Revenue. Any payments made after that date will carry an extra 4% interest. In other words, the Act provides that the interest rate shall be 10% per annum on any portion of the Tax that is due and unpaid.

All those persons who must file returns and particularly those who are taxable and who reside in the district north of a line just south of Lacombe and those adjacent to or north of the Lacombe-Coronation line of the C.P.R. are now in the district of Edmonton which was created on April 1st last. The office of the Inspector of Income Tax for this new district is situated in the Post Office building, Edmonton, to whom all payments for Tax and interest should now be made.

When forwarding payment of Taxes care should be taken to see that the taxpayer's proper name and address

Heals Eczema  
In 7 Days or Less

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds, but boils, abscesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same is true of various other itches, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moore's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. All druggists can supply you at any time.

Ontario surpasses every province and state of every country of the Western Hemisphere in the production of precious metals.

Leads its field in Value

ITS beautiful Fisher Bodies alone cannot give you the complete picture of the New Series Pontiac Six. You must see the car and drive it. Low-slung on the new, long wheelbase are the superbly styled Bodies by Fisher with their graceful lines and richly appointed interiors. Pulsating beneath the new, high hood is the improved Pontiac Six engine with its new G-M-R cylinder head, giving smoother, more silent performance and greater operating economy. Four-wheel brakes give added safety. Lowley Shock-Absorbers provide the ultimate in riding ease and comfort. A score of other refinements contribute to Pontiac's completeness and luxury. The New Series Pontiac Six leads in VALUE, not merely because it is the lowest priced six . . . but because it is the ONLY six . . . in its price class that possesses all these distinct advantages. You cannot conscientiously buy any car in the Pontiac price class, until you have weighed Pontiac value.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

## GRAHAM'S PHARMACY

MILLET J. R. K. Graham, Phm.B. PHONE 10

is given, also that cheques are first of all marked accepted by the Bank on which they are drawn, otherwise they have to be sent out for acceptance and credit cannot be given until they are returned from the banks.

There are some who simply forward a cheque with no covering letter and whose signature cannot be deciphered. Others put cash in an envelope without any note of who is sending the remittance. Both these methods of paying tax cause a great amount of trouble and are not recommended. It only takes a moment to make out a slip showing the taxpayer's name and address written plainly and when this is enclosed with the remittance there is a delay in having the credit put through and the receipt forwarded by return mail.

The PLACE for Service!

**ANGUS THEATRE**

FRIDAY, 8 P.M. SATURDAY, 2:30, 8 P.M. and 9:45 P.M.

**KEN MAYNARD in "The Upland Rider"**

The greatest picture Ken ever made. More riding thrills, more fighting, more comedy and a great endurance race with Ken's fifty foot jump with Tarzan from a cliff into a lake. It's the most daring stunt ever attempted for the movies.

**Added Special Attraction**  
On Saturday night at 9:45 Mrs. Eleanor Rosenroll will be on the stage and give her impersonation of "Sis Hopkins and Her Beau Wilfous".

MONDAY, TUESDAY, 8 P.M. JUNE 25 and 26

**NORMA SHEARER in "THE ACTRESS"**

The love story of a stage star and a son of wealth. It takes you behind the scenes, where the real drama begins when the curtain drops. This is Norma's greatest achievement.

WEDNESDAY, THURSDAY, 8 P.M. JUNE 27 and 28

**RICHARD BARTHELMESS in "LITTLE SHEPHERD OF KINGDOM COME"**

Simple in its grandeur—sweeping in its surge of emotion, is this soul-stirring drama of the Kentucky Hills and a boy's great fight to be a man.

Local Artists have a very special program prepared for this week and will be on the stage at 8:30 Wednesday.

FRIDAY, SATURDAY JUNE 29 and 30

**"THE LEGION OF THE CONDEMNED"****BORN**

ZEIDORF—On Thursday, June 7, near Wetaskiwin, to Mr. and Mrs. Rudolph Zeidorf, a son.

THORNE—On Wednesday, June 13, at the Wetaskiwin hospital, to Mr. and Mrs. Frank Thorne, a daughter.

HAY—On Thursday, June 14, near Gwynne, to Mr. and Mrs. Rudolph Hay, a son.

**TRUTHFULNESS REWARDED**

A Civil War veteran had spent a week at a New York hotel. When he went to pay his bill the clerk asked: "What was your rank?" "Oh, just a private," the old soldier remarked. "Well, I won't charge you anything. You are the first private I ever met."

**June Brides**

**Thursday : Friday : Saturday  
JUNE 28-29-30**

MRS. WRIGHT, an Interior Decorator, from the DUCO factory, will demonstrate at our store

**DUCO**

for handy home uses

DUCO brings to the home the same wonderful hard wearing properties that made DUCO famous as an automobile finish.

We carry a full stock of DUCO in 18 colors black &amp; white

also DUCO Stains in Light and Dark Oak Walnut and Mahogany

**A DAILY DEMONSTRATION**

10 A.M. TO NOON AND FROM 2 P.M. TO 5 P.M. EACH DAY

Showing you how to brighten your home with DUCO quick-drying lacquer.

You do not have to buy one cent's worth. This demonstration is for your instruction and benefit. You will be surprised how easily it is to use.

**A BRUSHING LACQUER**

DRY IN 30 MINUTES

FOR WOODWORK, FURNITURE, METALWORK AUTOMOBILES, ETC.
